

Fan wheel antistatic:
surface resistance < 10^9 Ohm according to
DIN 53 486/VDE 0303 Teil 8 and DIN IEC 60093

The diagram shows a three-phase power supply system. A horizontal line represents the neutral point, labeled 'Z'. Three vertical lines descend from this point to three circular terminals. The leftmost terminal is connected to a label 'Power supply AC'. The middle terminal is connected to a label 'Power supply AC'. The rightmost terminal is connected to a label 'Schutzleiter / protective earth'.

Y

- Power supply +
- Hall Sensor OUT
- GND
- PWM Input
- Power supply -

M4:	3 Nm
M5:	4 Nm
M6:	6 Nm
M8:	10 Nm
